If she hasn't done this already, have her try completely closing out of her browser and then getting back in.

Subject: New Database issues

Good Morning Emily,

Regina at Thrive is having troubles entering new users into the new database. She sent me the below message:

"Every time I click "new user", it says my 30 min session has timed out and to re-log in. In fact, that message is coming up with anything I am trying to click on I have logged out and logged back in several times and keep getting the same message."

Any suggestions?
Thanks for your help…again!
Carrie
